SCOPE

"Innovating and Inspiring Soft Computing and Intelligent Pattern Recognition"

After the success of the 5th International Conference of Soft Computing and Pattern Recognition (SoCPaR 2013), SoCPaR 2014 is organized to bring together worldwide leading researchers and practitioners interested in advancing the state of the art in Soft Computing and Pattern Recognition, for exchanging knowledge that encompasses a broad range of disciplines among various distinct communities. It is hoped that researchers and practitioners will bring new prospects for collaboration across disciplines and gain inspiration to facilitate novel breakthroughs.

The conference is expected to provide an opportunity for the researchers to meet and discuss the latest solutions, scientific results and methods in solving intriguing problems in the fields of soft Computing and Pattern Recognition. The conference programme will include workshops, special sessions and tutorials, along with prominent keynote speakers and regular paper presentations in parallel tracks. Like previous years, we expect the SoCPaR 2014 proceedings to be published by IEEE subject to fulfilling of all quality requirements of IEEE. The General Chairs, along with the entire team cordially invite you to submit your latest research results in the fields of Soft Computing and Intelligent Pattern Recognition, and to take part in the upcoming conference.

Like previous editions, all accepted papers presented at SoCPaR2014 will be selected and recommended for possible publication in Journal Special Issues and Edited Volumes (indexed by SCI, EI Compendex, etc.)

Plenary speakers:

- Cesare Alippi, Italy
- Robert John, United Kingdom
- Okyay Kaynak, Turkey
- Volker Märgner, Germany
